In this innovative and ambitious global history, distinguished economic historian Amiya Kumar Bagchi traces the global history of human change and survival under the sway of capitalism since the voyages of Columbus. Writing with extraordinary range and depth, he offers a critical analysis of the history and human costs and consequences of development in Europe and North America, and in major regions such as India, China, Japan, and Africa. Bagchi critically characterizes the emergence and operation of capitalism as a system driven by wars over resources and markets rather than one that genuinely operates on the principle of free markets. His unflinching examination of the human toll—in the periphery as well in the core nations—includes not only economic processes and issues of inequality within and among nations, but also the intertwining of economics and war-making on a world scale. Bagchi’s compelling vision will change the ways in which we think about many of the largest issues in the world history and development over the past 500 years.

This volume, published in honor of historian Geoffrey Parker, explores the working of European empires in a global perspective, focusing on one of the most important themes of Parker’s work: the limits of empire, which is to say, the centrifugal forces - sacral, dynastic, military, diplomatic, geographical, informational - that plagued imperial formations in the early modern period (1500-1800). During this time of wrenching technological, demographic, climatic, and economic change, empires had to struggle with new religious movements, incipient nationalisms, new sea routes, new military technologies, and an evolving state system with complex new rules of diplomacy. Engaging with a host of current debates, the chapters in this book break away from conventional historical conceptions of empire as an essentially western phenomenon with clear demarcation lines between the colonizer and the colonized. These are replaced here by much more fluid and subtle conceptions that highlight complex interplays between coalitions of rulers and ruled. In so doing, the volume builds upon recent work that increasingly suggests that empires simply could not exist without the consent of their imperial subjects, or at least significant groups of them. This was as true for the British Raj as it was for imperial China or Russia. Whilst the thirteen chapters in this book focus on a number of geographic regions and adopt different approaches, each shares a focus on, and interest in, the working of empires and the ways that imperial formations dealt with - or failed to deal with - the challenges that beset them. Taken together, they reflect a new phase in the evolving historiography of empire. They also
reflect the scholarly contributions of the dedicatee, Geoffrey Parker, whose life and work are discussed in the introductory chapters and, we’re proud to say, in a delightful chapter by Parker himself, an autobiographical reflection that closes the book.

**Empires in World History**

Burbank and Cooper examine Rome and China from the third century BCE, empires that sustained state power for centuries.

**Modern World History California Edition**

For the NEW 2020 Exam AP(R) World History: Modern Crash Course(R) A Higher Score in Less Time At REA, we invented the quick-review study guide for AP(R) exams. A decade later, REA's Crash Course(R) remains the top choice for AP(R) students who want to make the most of their study time and earn a high score. Here's why more AP(R) teachers and students turn to REA’s AP(R) World History: Modern Crash Course(R) Targeted, Focused Review - Study Only What You Need to Know REA's 3rd edition addresses all the latest test revisions taking effect through 2020. Our Crash Course(R) is based on an in-depth analysis of the revised AP(R) World History: Modern course description outline and sample AP(R) test questions. We cover only the information tested on the exam, so you can make the most of your valuable study time. Expert Test-taking Strategies and Advice Written by Jay Harmon, a seasoned AP(R) World History teacher and former member of the College Board's AP(R) World History Test Development Committee, the book gives you the topics and critical context that will matter most on exam day. Crash Course(R) relies on the author's extensive, strategic analysis of the test's structure and content. The author presents detailed, question-level strategies for answering all AP(R) World History question types. By following his advice, you can boost your score in every section of the test. Practice questions - a mini-test in the book, a full-length exam online. Are you ready for your exam? Try our focused practice set inside the book. Then go online to take our full-length practice exam. You'll get the benefits of timed testing, detailed answers, and automatic scoring that pinpoints your performance based on the official AP(R) exam topics - so you'll be confident on test day. Whether you're cramming for the exam or looking to recap and reinforce your teacher's lessons, Crash Course(R) is the study guide every AP(R) student needs. About the Author: Jay P. Harmon earned his B.S. and M.Ed. from Louisiana State University, Baton Rouge, Louisiana. He began his teaching career in 1982 and has taught in public and private schools in Louisiana and Texas. Mr. Harmon has taught AP(R) European History, AP(R) United States History, and AP(R) World History. He was an exam essay reader in AP(R) European History and AP(R) United States History and has been a table leader and question leader in AP(R) World History since the exam was first administered in 2002. He served on the AP(R) World History Test Development Committee from 2003 to 2008. His AP(R) European History and AP(R) World History websites (www.harmonhistory.com) have been go-to resources for students and teachers for more than a decade. Since 1998, Mr. Harmon has served as a consultant to the College Board(R), holding workshops and summer institutes in the United States and abroad. He has also contributed to the development of several history textbooks.

**A History of the Modern World**

While world history materials date back to prehistoric times, the field itself is relatively young. Indeed, when the first edition of Peter Stearns's best-selling World History in Documents was published in 1998, world history was poised for explosive growth, with the College Board approving the AP world history curriculum in 2000, and the exam shortly thereafter. At the university level, survey world history courses are increasingly required for history majors, and graduate programs in world history are multiplying in the U.S. and overseas. World events have changed as rapidly as the field of world history itself, making
the long-awaited second edition of World History in Documents especially timely. In addition to including a new preface, focusing on current trends in the field, Stearns has updated forty percent of the textbook, paying particular attention to global processes throughout history. The book also covers key events that have altered world history since the publication of the first edition, including terrorism, global consumerism, and environmental issues.

**World History in Documents**

The industrial revolution was the single most important development in human history over the past three centuries, and it continues to shape the contemporary world. With new methods and organizations for producing goods, industrialization altered where people live, how they play, and even how they define political issues. By exploring the ways the industrial revolution reshaped world history, this book offers a unique look into the international factors that started the industrial revolution and its global spread and impact. In the fourth edition, noted historian Peter N. Stearns continues his global analysis of the industrial revolution with new discussions of industrialization outside of the West, including the study of India, the Middle East, and China. In addition, an expanded conclusion contains an examination of the changing contexts of industrialization. The Industrial Revolution in World History is essential for students of world history and economics, as well as for those seeking to know more about the global implications of what is arguably the defining socioeconomic event of modern times.

**Sovereignty and Authenticity**

From the monarchical terror of the Middle Ages to the mangled Europe of the twenty-first century, A People's History of Modern Europe tells the history of the continent through the deeds of those whom mainstream history tries to forget. Europe provided the perfect conditions for a great number of political revolutions from below. The German peasant wars of Thomas Müntzer, the bourgeois revolutions of the eighteenth century, the rise of the industrial worker in England, the turbulent journey of the Russian Soviets, the role of the European working class throughout the Cold War, student protests in 1968 and through to the present day, when we continue to fight to forge an alternative to the barbaric economic system. By focusing on the role of women, trade unions and students, this history sweeps away the tired platitudes of the privileged upon which our current understanding is based, providing an opportunity to see our history differently.

**Europe in the Modern World**

David Lloyd George's six months in Paris in 1919, pitting his wits against Woodrow Wilson, Georges Clemenceau, and others, were among the most enjoyable but exhausting of his life. This study investigates the extent to which Lloyd George succeeded in his aims and evaluates the immediate and longer-term results of his negotiations for Britain.

**Ways of the World with Sources for AP*, Second Edition**

In this powerful and provocative book, Prasenjit Duara uses the case of Manchukuo, the Japanese puppet state in northeast China from 1932-1945, to explore how such antinomies as imperialism and nationalism, modernity and tradition, and governmentality and exploitation interacted in the post-World War I period. His study of Manchukuo, which had a population of 40 million and was three times the area of Japan, catalyzes a broader understanding of new global trends that characterized much of the twentieth century. Asking why Manchukuo so desperately sought to appear sovereign, Duara examines the cultural and political
resources it mobilized to make claims of sovereignty. He argues that Manchuko, as a transparently constructed 'nation-state,' offers a unique historical laboratory for examining the utilization and transformation of circulating global forces mediated by the 'East Asian modern.' Sovereignty and Authenticity not only shows how Manchuko drew technologies of modern nationbuilding from China and Japan, but it provides a window into how some of these techniques and processes were obscured or naturalized in the more successful East Asian nation-states. With its sweepingly original theoretical and comparative perspectives on nationalism and imperialism, this book will be essential reading for all those interested in contemporary history.

**The Chosen**

It's the revolutionary world history study guide just for middle school students from the brains behind Brain Quest. Everything You Need to Ace World History kicks off with the Paleolithic Era and transports the reader to ancient civilizations—from Africa and beyond; the middle ages across the world; the Renaissance; the age of exploration and colonialism, revolutions, and the modern world and the wars and movements that shaped it. The BIG FAT NOTEBOOK™ series is built on a simple and irresistible conceit—borrowing the notes from the smartest kid in class. There are five books in all, and each is the only one book you need for each main subject taught in middle school: Math, Science, American History, English, and World History. Inside the reader will find every subject's key concepts, easily digested and summarized: Critical ideas highlighted in marker colors. Definitions explained. Doodles that illuminate tricky concepts. Mnemonics for a memorable shortcut. And quizzes to recap it all. The BIG FAT NOTEBOOKS meet Common Core State Standards, Next Generation Science Standards, and state history standards, and are vetted by National and State Teacher of the Year Award-winning teachers. They make learning fun, and are the perfect next step for every kid who grew up on Brain Quest.

**A People's History of Modern Europe**

Emphasizing the global nature of racism, this volume brings together historians from various regional specializations to explore this phenomenon from comparative and transnational perspectives. The essays shed light on how racial ideologies and practices developed, changed, and spread in Europe, Asia, the Near East, Australia, and Africa, focusing on processes of transfer, exchange, appropriation, and adaptation. To what extent, for example, were racial beliefs of Western origin? Did similar belief systems emerge in non-Western societies independently of Western influence? And how did these societies adopt and adapt Western racial beliefs once they were exposed to them? Up to this point, the few monographs or edited collections that exist only provide students of the history of racism with tentative answers to these questions. More importantly, the authors of these studies tend to ignore transnational processes of exchange and transfer. Yet, as this volume shows, these are crucial to an understanding of the diffusion of racial belief systems around the globe.

**The Limits of Empire: European Imperial Formations in Early Modern World History**

The ideal textbook for the AP® World History classroom, Ways of the World focuses on significant historical trends, themes, and developments in world history, while building AP® skills. Authors Robert Strayer and Eric Nelson provide a thoughtful and insightful commentary that helps students see the big picture, while modeling historical thinking. This edition is even more focused on the needs of AP® students, with AP® Skills Workshops, a DBQ-aligned Working with Evidence feature, and more opportunities to hone AP® skills and practice for the exam.

**Perilous Passage**
The second edition of this concise survey offers a comparative and comprehensive study of culinary cultures and food politics throughout the world, from ancient times to the present day. It examines the long history of globalization of foods as well as the political, social, and environmental implications of our changing relationship with food, showing how hunger and taste have been driving forces in human history. Including numerous case studies from diverse societies and periods, Food in World History explores such questions as: What social factors have historically influenced culinary globalization? How did early modern plantations establish patterns for modern industrial food production? Were eighteenth-century food riots comparable to contemporary social movements around food? Did Italian and Chinese migrant cooks sacrifice authenticity to gain social acceptance in the Americas? Have genetically modified foods fulfilled the promises made by proponents? This new edition includes expanded discussions of gender and the family, indigeneity, and the politics of food. Expanded chapters on contemporary food systems and culinary pluralism examine debates over the concentration of corporate control over seeds and marketing, authenticity and exoticism within the culinary tourism industry, and the impact of social media on restaurants and home cooks.

David Lloyd George

World History

The fifth edition of this bestselling book is for school and MA26 students taking courses in Modern World History and for undergraduates in History and International Relations. It is a complete, self-contained, lively and highly readable course, suitable for individual study or classroom use. The general reader who wishes to find out how the world got into its present state will also find the book useful. Key features of the fifth edition: • A new chapter on Latin America and its changing relationship with the USA • New sections on the Arab Spring, the 2008 financial crash and its aftermath, and the European Union in crisis • New material on the changing face of communism in China; USA: Bush to Obama; Russia under Putin and Medvedev; the continuing conflict between Palestinians and Israelis and the ‘war against terrorism’ Content includes: • A survey of international relations and war from 1900 to 2012 • Europe and its history - the rise and fall of fascism and communism • International affairs of the major superpowers - USA, Russia/USSR and China • International conflict - The Holocaust, 9/11 and the fall of Saddam Hussein • Decolonization and subsequent events in Africa, and the rise of political Islam • Global problems - climate change, economic crises, the population ‘explosion’ • Mention of disagreements and controversies among historians, as well as new interpretations and discoveries Norman Lowe has had many years’ experience of teaching History at all levels, and for 25 years was Head of History at Nelson and Colne MA26 in Lancashire. He is the author of Mastering Modern British History and Mastering Twentieth Century Russian History. Fully updated companion website with examples of document questions for each chapter www.palgrave.com/masterseries/Lowe

World History

Barron’s AP World History: Modern Premium is fully revised to align with the College Board changes for the May 2020 exam. You’ll get in-depth content review and 5 revised practice tests to help you feel prepared for the new test. This edition includes: Two full-length practice tests in the book with revised free-response questions. Three fully revised online practice tests, with updated multiple-choice questions to reflect time period changes Comprehensive content review corresponding with the 4 time periods covered on the exam. Anything pre-1200 CE will fall under AP World History: Ancient and will not be on the May 2020 exam. Expert strategies for answering all question types Unit shortcut charts and key concepts at the beginning of each chapter to help organize a better study plan
Developing Skills for Modern World History O/n Level

Empires in World History

This resource book is designed to assist teachers in implementing California's history-social science framework at the 10th grade level. The models support implementation at the local level and may be used to plan topics and select resources for professional development and preservice education. This document provides a link between the framework’s course descriptions and teachers’ lesson plans by suggesting substantive resources and instructional strategies to be used in conjunction with textbooks and supplementary materials. The resource book is divided into eight units: (1) "Unresolved Problems of the Modern World"; (2) "Connecting with Past Learnings: The Rise of Democratic Ideas"; (3) "The Industrial Revolution"; (4) "The Rise of Imperialism and Colonialism: A Case Study of India"; (5) "World War I and Its Consequences"; (6) "Totalitarianism in the Modern World: Nazi Germany and Stalinist Russia"; (7) "World War II: Its Causes and Consequences"; and (8) "Nationalism in the Contemporary World." Each unit contains references. (EH)

The Middle East in Modern World History

A coming-of-age classic about two Jewish boys growing up in Brooklyn in the 1940s, this “profound and universal” (The Wall Street Journal) story of faith, family, tradition, and assimilation remains deeply pertinent today. “Works of this caliber should be occasion for singing in the streets and shouting from the rooftops.” —Chicago Tribune It’s the spring of 1944 and fifteen-year-olds Reuven Malter and Danny Saunders have lived five blocks apart all their lives. But they’ve never met, not until the day an accident at a softball game sparks an unlikely friendship. Soon these two boys—one expected to become a Hasidic rebbe, the other at ease with secular America—are drawn into one another’s worlds despite a father’s strong opposition. Set against the backdrop of World War II and the creation of the state of Israel, The Chosen is a poignant novel about transformation and tradition, growing up and growing wise, and finding yourself—even if it might mean disappointing those you love.

Princeton Review AP World History: Modern Premium Prep 2021

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Succeed in OCR GCSE Modern World History with this active and effective approach to revision. - All the key content of the OCR course is presented in just the right amount of detail for revision. - Revision tasks are provided for every topic to ensure you remember and understand it - Exam Practice and Exam tips help you apply what you are learning to exam style questions - Comment boxes guide you towards possible viewpoints on the key issues - reaching your own view and being able to support it is a good way to boost your grade

**Ways of the World with Sources: For the AP® Course**

"World Christianity publications proliferate but the issue of methodology has received little attention. World Christianity: Methodological Considerations addresses this lacuna and explores the methodological ramifications of the World Christianity turn. In twelve chapters scholars from various academic backgrounds (anthropology, religious studies, history, missiology, intercultural studies, theology, and patristics) as well as of multiple cultural and national belongings investigate methodological issues (e.g. methods, use of sources, choosing a unit of analysis, terminology, conceptual categories,) relevant to World Christianity debates. In a closing chapter the editors Frederiks and Nagy converge the findings and sketch the outlines of what they coin as a 'World Christianity approach', a multidisciplinary and multiple perspective approach to study Christianity/ies' plurality and diversity in past and present"--

Everything You Need to Ace World History in One Big Fat Notebook

The Middle East in Modern World History focuses on the history of this region over the past 200 years. It examines how global trends during this period shaped the Middle East and how these trends were affected by the region’s development. Three trends from the past two centuries are highlighted: The region as a strategic conduit between East and West The development of the region's natural resources, especially oil The impact of a rapidly globalizing world economy on the Middle East

**World Christianity**

How empires have used diversity to shape the world order for more than two millennia—vast states of territories and peoples united by force and ambition—have dominated the political landscape for more than two millennia. Empires in World History departs from conventional European and nation-centered perspectives to take a remarkable look at how empires relied on diversity to shape the global order. Beginning with ancient Rome and China and continuing across Asia, Europe, the Americas, and Africa, Jane Burbank and Frederick Cooper examine empires’ conquests, rivalries, and strategies of domination—with an emphasis on how empires accommodated, created, and manipulated differences among populations. Burbank and Cooper examine Rome and China from the third century BCE, empires that sustained state power for centuries. They delve into the militant monotheism of Byzantium, the Islamic Caliphates, and the short-lived Carolingians, as well as the pragmatically tolerant rule of the Mongols and Ottomans, who combined religious protection with the politics of loyalty. Burbank and Cooper discuss the influence of empire on capitalism and popular sovereignty, the limitations and instability of Europe's colonial projects, Russia's repertoire of exploitation and differentiation, as well as the “empire of liberty”—devised by American revolutionaries and later extended across a continent and beyond. With its investigation into the relationship between diversity and imperial states, Empires in World History offers a fresh approach to understanding the impact of empires on the past and present.

**Mastering Modern World History**

Empires of the Sea brings together studies of maritime empires from the Bronze Age to the Eighteenth Century. The volume develops the category of maritime empire as a specific type of empire in both European and ‘non-western’ history.

**Empires of the Sea**

Forging the Modern World offers an accessible explanation of key transformations in global economic, political, and ideological relationships since the sixteenth century. Examining global history by exploring the ways historians construct the past, this text will help students reflect on how sources, methodologies, and trends shape how we perceive history.

**Treatise on Toleration**

A new translation of Voltaire’s Treatise on Toleration, one of the most important essays on religious tolerance and freedom of thought. A powerful, impassioned case for the values of freedom of conscience and religious tolerance, Treatise on Toleration was written after the Toulouse merchant Jean Calas was falsely accused of murdering his son and executed on the wheel in 1762. As it became clear that Calas had been persecuted by ‘an irrational mob’ for being a Protestant, the Enlightenment philosopher Voltaire began a campaign to vindicate him and his family. The resulting work, a screed against fanaticism and a
plea for understanding, is as fresh and urgent today as when it was written.

**Racism in the Modern World**

**Forging the Modern World**

Comparatism is reflexive comparison. The regime of comparatism is the horizon of knowledge in which each individual comparison is received and judged. The aim of this book is to turn the comparative insight on itself and compare different comparative moments, exploring various frameworks of comparison in history, religion and anthropology.

**America's History**

Comparisons, Connections, & Change-contexts for the particulars Ways of the World is the textbook preferred by AP World History teachers and students across North America. Like the AP course it supports, Ways of the World focuses on significant historical trends, themes, and developments in world history. Author Robert W. Strayer provides a thoughtful and insightful synthesis that helps students see the big picture. Each chapter then culminates with collections of primary sources (written and visual) organized around a particular theme, issue, or question, thus allowing students to consider the evidence the way historians do. The second edition includes a wealth of supporting resources and supplements for the AP course, including an AP Skills Primer and AP Chapter Wrap-Ups, and rolls out Bedford/St. Martin's new digital history tools, including LearningCurve, an adaptive quizzing engine that garners over a 90% student satisfaction rate, and LaunchPad, the all new interactive e-book and course space that puts high quality easy-to-use assessment at your fingertips. Featuring video, additional primary sources, a wealth of adaptive and summative quizzing, and more, LaunchPad cements student understanding of the text while helping them make progress toward learning outcomes. It's the best content joined up with the best technology.
